OBJECTIVE

I am a Computer Science and Engineering student passionate about Python Full Stack Development, Cloud Computing, REST APIs, and scalable web applications. Seeking an entry-level Full Stack & Cloud Developer role where I can build secure, cloud-native applications using modern development practices.

EDUCATION

RAJIV GANDHI COLLEGE OF ENGINEERING & TECHNOLOGY, PUDUCHERRY

Bachelor of Technology in Computer Science and Engineering – 2023-27 Batch

CGPA – 8.94/10

ACHARIYA SIKSHA MANDIR HR. SEC. SCHOOL, PUDUCHERRY

12th Standard (HSC)

Year of Passing: 2023 | Percentage – 81%

SKILLS

- **Languages:** Python, Java, JavaScript
- **Frontend:** HTML, CSS, Bootstrap
- **Backend:** Flask, React
- **Database:** MySQL, SQLite, MongoDB
- **Cloud & DevOps:** Docker, GitHub Actions
- **Version Control:** Git, GitHub
- **Soft Skills:** Problem Solving, Debugging, Teamwork, Communication, Leadership
- **Concepts:** REST APIs, CRUD Operations, OOP, Algorithms

EXPERIENCE

1. Remote Internship (Frontend Development) – Cognifyz Technologies

Duration: 1 Month

- Developed multiple frontend projects using HTML, CSS, JavaScript, APIs, and responsive design principles.

2. Remote Internship (Frontend Development) – Shine Craft Technologies

Duration: 6 Months (Ongoing)

- Executed functional test cases on a **Gold Loan web application** with the testing team.
- **Feedback Form Website:** Designed a responsive React-based Feedback Form application with reusable UI components, enhancing accessibility and user experience.
- **File Management System Desktop Application:** Built a desktop-based File Management System using Flask and Electron with CRUD functionality, improving record organization and reducing manual effort by approximately 50%.

PROJECTS

1. Smart India Hackathon 2024

Topic: **Explore Tamil Nadu** (Suggest best places to visit in Tamil Nadu)

- Designed a travel recommendation platform with location-based suggestions to help users discover suitable tourist destinations.

2. AI-Based Portfolio Builder with Admin Dashboard (for Academic)

Link: <https://portfolio-builder-gir9.onrender.com>

Domain: AI-Based Web Application Development

- Developed an AI-powered portfolio generation system using Flask and SQLite supporting dynamic portfolio creation and admin management with **CRUD operations**.
- Reduced manual portfolio creation effort by approximately 60%.
- **Tech Stack:** Flask, HTML, CSS, JavaScript, SQLite, Jinja, Git, GitHub, Render.

3. CGPA Calculator with Admin Dashboard

Link: <http://Aatishash.pythonanywhere.com>

- Built a CGPA calculator for Pondicherry University students with semester-wise GPA calculation and **Excel export** functionality.
- Automated academic calculations to reduce manual effort and improve accuracy.
- **Tech Stack:** Python, Flask, SQLite, Jinja, Chart.js, openpyxl.

4. AI-Powered Placement Preparation and Career Guidance Portal

Link: <https://ai-powered-placement-preparation-and.onrender.com>

- Developed a **Full-Stack Web application** with aptitude tests, coding, challenges, interview evaluation, resume analysis, career guidance, and Performance tracking to help students prepare for placements.
- **Tech Stack:** Python, Flask, SQLAlchemy, HTML, CSS, Bootstrap, JavaScript, SQLite, Google Gemini AI, Chart.js, ReportLab, Git, GitHub, Render.

5. AI-Driven Cloud-Native HR & Payroll Management System (for Academic)

- Developing an AI-driven cloud-native HR & Payroll Management System with intelligent payroll automation, employee lifecycle management, predictive analytics, and secure cloud deployment using modern full-stack technologies.
- **Tech Stack:** Flutter, Dart, Python, FastAPI, Docker, GitHub Actions, ReportLab, Git.

CERTIFICATIONS

- Cloud Computing — NPTEL (Elite), April 2026.
- Python for Data Science — NPTEL (Elite + Silver), July 2025.
- PHP and MySQL Training - 66.67% score (4 Credits) from Spoken Tutorial Project, IIT Bombay - April 2025.
- Java Training - 92.5% score (4 Credits) from Spoken Tutorial Project, IIT Bombay - November 2024.
- Completed Python Course on Guvi – November 2024.
- Junior Grade Typewriting in English – First Class with Distinction, Feb 2022.

ACHIEVEMENTS & ACTIVITIES

- Secured 1st Prize in SUDO KODE, a coding competition organized by TUX GLUG, Department of CSE, RGCET, demonstrating problem-solving and programming skills.
- Attended Personality Growth Webinar.
- Class Representative.

LANGUAGE KNOWN

- English
 - Tamil
