PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science and Engineering student with hands-on experience in full-stack development through internships and academic projects. Proficient in Python, JavaScript, React, Flask, SQL, and MongoDB, with experience building responsive web applications, REST APIs, CRUD-based systems, and AI-powered applications. Strong foundation in OOP, DBMS, Data Structures & Algorithms, and problem solving, seeking an entry-level Full Stack Developer role.

EDUCATION

RAJIV GANDHI COLLEGE OF ENGINEERING & TECHNOLOGY, PUDUCHERRY
Bachelor of Technology in Computer Science and Engineering – 2023-27 Batch
CGPA – 8.84/10

ACHARIYA SIKSHA MANDIR HR. SEC. SCHOOL, PUDUCHERRY
12th Standard (HSC)
Year of Passing: 2023 | Percentage – 81%

SKILLS

- **Programming Languages:** Python, Java, JavaScript, C
- **Frontend:** HTML, CSS, Bootstrap, React
- **Backend:** Flask
- **Databases:** MySQL, SQLite, MongoDB
- **DevOps & Tools:** Docker, Git, GitHub, Canva
- **Core Concepts:** OOP, DBMS, Data Structures & Algorithms, Artificial Intelligence
- **Soft Skills:** Problem Solving, Debugging, Teamwork, Communication, Leadership

EXPERIENCE

1. **Shine Craft Technologies** March 2026 – September 2026
   Frontend Developer – Internship
   - Executed functional test cases on a **Gold Loan web application** with the testing team.
   - **Feedback Form Website:** Designed a responsive React-based Feedback Form application with reusable UI components, enhancing accessibility and user experience.
   - **File Management System Desktop Application:** Built a desktop-based File Management System using Flask and Electron with CRUD functionality, improving record organization and reducing manual effort by approximately 50%.
   - **Letterhead Generator:** Developed a web-based letterhead generator application for creating professional documents with customizable templates and PDF download functionality.
2. **Cognifyz Technologies** August 2025
   Frontend Developer – Internship
   - Developed responsive web interfaces using HTML, CSS, and JavaScript based on project requirements.
   - Integrated REST APIs to retrieve and display dynamic application data.
   - Implemented responsive layouts for cross-device compatibility.

PROJECTS

1. **AI-Based Portfolio Builder with Admin Dashboard**
   Link: https://portfolio-builder-gir9.onrender.com
   Domain: AI-Based Web Application Development
   - Developed an AI-powered portfolio generation system using Flask and SQLite supporting dynamic portfolio creation and admin management with **CRUD operations**.
   - **Tech Stack:** Flask, HTML, CSS, JavaScript, SQLite, Jinga, Git, GitHub, Render.
2. **CGPA Calculator with Admin Dashboard**
   Link: http://Aatishash.pythonanywhere.com
   - Built a CGPA calculator for Pondicherry University students with semester-wise GPA calculation and **Excel export** functionality.
   - Automated academic calculations to reduce manual effort and improve accuracy.
   - **Tech Stack:** Python, Flask, SQLite, Jinga, Chart.js, openpyxl.
3. **AI-Powered Placement Preparation and Career Guidance Portal**
   Link: https://ai-powered-placement-preparation-and.onrender.com
   - Developed a **Full-Stack Web application** with aptitude tests, coding, challenges, interview evaluation, resume analysis, career guidance, and Performance tracking to help students prepare for placements.
   - **Tech Stack:** Python, Flask, SQLAlchemy, HTML, CSS, Bootstrap, JavaScript, SQLite, Google Gemini AI, Chart.js, ReportLab, Git, GitHub, Render.
4. **Intelligent and Secure Task Scheduling for Digital Twin enabled Edge-Cloud Networks**
   - Developed a privacy-aware task scheduling framework using AI, Digital Twin, and Edge Computing to enhance data security, reduce latency, and improve energy efficiency in IoT environments.
   - **Tech Stack:** Python, Java, Artificial Intelligence, Genetic Algorithm, Digital Twin, Edge Computing (MEC), IoT, Cloud Computing, M/M/1 Queueing Model, Privacy-Preserving Task Scheduling.

CERTIFICATIONS

- Artificial Intelligence – Concepts and Techniques with Score 76% — NPTEL (Elite + Silver), October 2026.
- Cloud Computing with Score 66% — NPTEL (Elite), April 2026.
- Python for Data Science with Score 75% — NPTEL (Elite + Silver), July 2025.
- PHP and MySQL Training - 66.67% score (4 Credits) from Spoken Tutorial Project, IIT Bombay - April 2025.
- Java Training - 92.5% score (4 Credits) from Spoken Tutorial Project, IIT Bombay - November 2024.
- Completed Python Course on GUVI – November 2024.
- Junior Grade Typewriting in English – First Class with Distinction, Feb 2022.

ACHIEVEMENTS & ACTIVITIES

- Participated in Internal Hackathon 2026 and demonstrated a Smart Curriculum Web Application.
- Participated in Internal Hackathon 2024 and demonstrated a Explore Tamil Nadu travel recommendation platform.
- Secured 1st Prize in SUDO KODE, a coding competition organized by TUX GLUG, Department of CSE, RGCET, demonstrating problem-solving and programming skills.
- Attended Personality Growth Webinar.
- Class Representative: Acted as a bridge between the students and the college administration.
- Student Placement Coordinator: Coordinated communication between 350+ students, recruiters, and the placement cell, supporting placement activities and recruitment processes.

LANGUAGES

- English (Read, Write, Speak)
- Tamil (Mother Tongue)
